
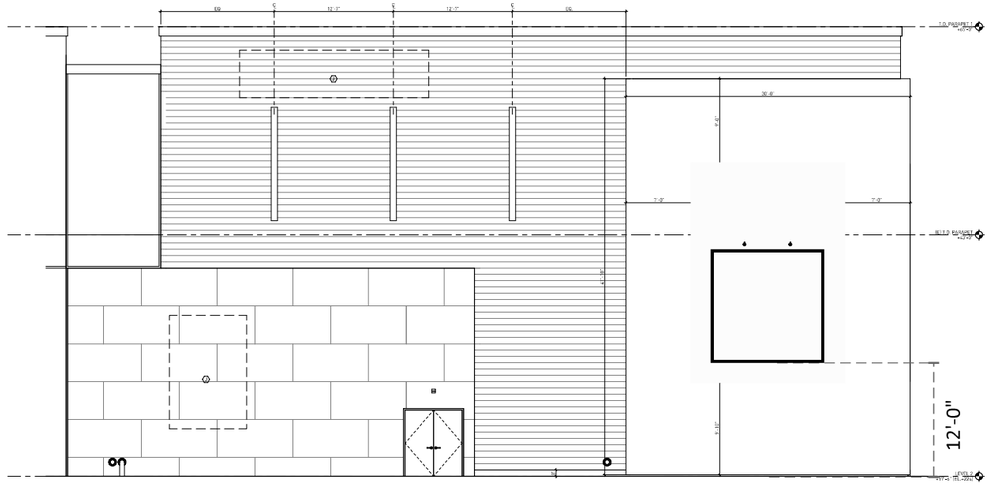
140 SQ FT



SCALE 1/16" = 1'-0"

E BANNER W/ FRAME SCALE: 3/16" = 1'-0"

ONE (1) REQUIRED - MANUFACTURE AND INSTALL

PROVIDE AND INSTALL BANNER GRIP STRETCH FRAME PRE-FINISHED BLACK.

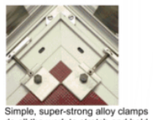
MFG & INSTALL FLEX FACE BANNERS WITH DIGITALLY PRINTED GRAPHICS

ATTACH TO WALL USING NON-CORROSIVE FASTENERS SUITABLE FOR WALL STRUCTURE.

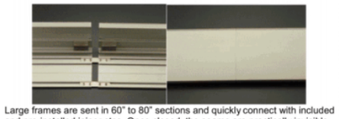
CUSTOMER TO PROVIDE HIGH RESOLUTION ARTWORK.

Clamps grip edges of banner, won't tear or pull off. Clamps pull banner tight. Stretches out the worst wrinkles and creases. Your graphic will look like it was ironed ! Frame edges flip down to cover clamps and mounting holes. Banner is nice and perfectly tight !

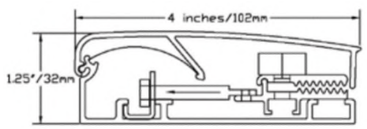
Installation of large banner stretch frames. Size: 23 ft x 11 ft



Simple, super-strong alloy clamps do all the work to stretch and hold.



Large frames are sent in 60" to 80" sections and quickly connect with included and pre-installed joiner stps. Once closed, the seams are practically invisible. Frames sent by UPS for easy assembly on site. Frame is 4" wide, 1.25" thick.



Banner Grip frame dimensions

FEATURES of the Banner stretching frame:

1. Easily hang loose banner in frame before tightening, no struggling with precision alignment or sticky tapes.
2. Easily add clamps anywhere in rail, at any time-to get a perfectly stretched banner; Clamps are individually adjustable to get the perfect stretch -no sags. A truly innovative frame. Patents Pending.
3. Inside or outside use, will not rust, drip or corrode - made of high-grade aluminum alloy and stainless steel;
4. Display ANY type of banner: raw edge, or existing banners with grommets, pole sockets or hemmed edges -any thickness banner;
5. Will also hold rigid, but flexible substrates like solid plastic sheets or sheet metal signs up to 1/16". Will eliminate "waviness" and make signs perfectly "flat."
6. Shipped in 60"to 80" sections (for larger frames)

Revision/Date

R1S-7-19SH: Sign A – please show the blue cans and white outline on the "Century Theatres" faces. B – I asked two reds on LLCentury faces as is. C12 – Please change letters to white faces. Sign D – please add a small red Cinemark over 3D and move them closer to the blade sign per detail below. E - - change the poster case dimension to 5' wide x 8' tall

R2I12-19SH: Add the wayfinding and garage signs to our package

R3I23-19SH - Change F-FIN to just "Century" without Theatres.
- Change G & H to bleed face cabinets without retainers and paint the cabinet returns red to match the faces.
- Delete elevations & plans to provide electrical & attachment details and requirements for the sign. Will be responsibility to rough in electrical so we need the set of plans updated for the site meeting for Aladdin.
CORRECTION(1-10-20)SD: SIGN "D" & "H" RED RETURNS

R4I1.27.20SH - Add site plan, wall sections, and details from shell drawings - Add Abdi's meeting notes & redlines to the drawings.
Sign A&I will have remote power supplies - pre-wiring not required.
Add details for the ACM background behind sign C. Pre-drilling required.
Sign D will have 3 leads dropped with power supplies above drop ceiling. Show this on a sidesection detail for j-box placement. Pre-wiring not required delete "E" and just show the dimensions/quantity on the elevations. Add banner on frame sign instead.

R5I2/5/20JGZ: Rebrand to Cinemark.

R6I2-14-20SH: Revise signs G & H to individual "CINEMARK" channel letters rather than cabinets. Use the square footage from the original allowable area where Sears was located.
Delete postercases 7 & 2 shown on the elevations on page 3 altogether. Re-number the posterscases so it's clear we only have 5 on this wall. Also remove that fact cards.
Update the notes for sign A to have this sign be self-contained power supplies like the standard construction for this sign. Delete note about remote power supplies and low voltage penetrations.
Add 25" +/- wide CineMark logo with white formed faces and white returns inside at the mall entry

2-21-20SH: CHANGE SIGNS G AND I TO BE SELF CONTAINED PER RED TAG FROM DALLAS

R7I2-25-20SH: Delete sign B. Re-letter. Show location of sign H on an aerial map or site plan.

R8I2-26-20SH - Delete sign D, re-letter. The section on page 7? & for sign B, so it needs to be moved up in the package to page 7 and we need to be sure we have a section noted with specs for sign H.

4-6-20 R: do not change R# : Add weights for the individual letters on signs C1, C2, and the small CineMark letters on D for permitting. They should be under 100 lbs which allows us to avoid getting stamped engineering.

R9I4-28-20SH: the gas line was relocated inside the building so we no longer have a conflict with the SC sign. Delete notes on page 3 & page 9. Delete page 10.

4-27-20 PERMIT: Changes per city requirements.

R10 PERMIT (5-7-20)H - On sign D, delete "Cinemark" letters & reduce the X to 12"
- Reduce E to 14' x 20'

- Reduce E to 14' x 20'

R11(8-14-20)H: Reduce sign E from 280 square feet to 140 square feet proportionately. Show it lower than center on the wall. Show light fixtures by GC above the poster. Be sure the scale on the main elevation & also the detail sheet for sign E are both updated with the new size.

R12(8-21-20)H: Change banner to 12' x 12'
