

ITEM 5.4: **Regional Mall Master Sign Permit Modification – 1151 Galleria BL. STE. 150– NCRSP PCL 35 – Round 1 Signage – PL22-0179**

REQUEST

The applicant request approval to modify the approved Regional Mall Master Sign Permit (RMMSP) for the Galleria Mall. Proposed changes will incorporate signage for the new Round 1 entertainment venue, including illuminated exterior signs and vinyl lettering for a bowling pin sculpture totaling approximately 303 square feet.

Applicant- David Ford, All Sign Services

Owner – Seritage SRC Finance, LLC

SUMMARY RECOMMENDATION

The Planning Division recommends that the Planning Commission take the following actions:

- A. Approve the proposed modifications to the Regional Mall Master Sign Permit subject to two (2) conditions of approval.

SUMMARY OF OUTSTANDING ISSUES

There are no outstanding issues associated with this request. The applicant has reviewed and is in agreement with the recommended conditions of approval.

BACKGROUND

The Galleria Mall is located at the northwest corner of Galleria Boulevard and Roseville Parkway on Parcel 35 of the North Central Roseville Specific Plan. On January 6, 1999, the City Council approved a Sign Ordinance Amendment (File # RMMSP 99-02) that established a separate section in the Ordinance, similar to the Automall provision, which requires a comprehensive Regional Mall Master Sign Permit (RMMSP) for exterior signage for the Mall and the anchors. The RMMSP is intended to establish the details of the sign program for the shopping center and all of the parcels on the Mall property (NCRSP Parcel 35). The Ordinance amendment was approved by the City Council with the acknowledgement that the RMMSP would include signs that exceeded the maximum height, area, and quantity limitations. The Council believed that this was appropriate due to the magnitude of the mall project and its unique distinction as the only conventional regional retail mall in the City, with approximately 1.1 million square feet and 140 tenants under one roof at that time. The Mall underwent a major expansion to add 480,000 square feet for a total of 1.6 million square feet, beginning in 2006. On October 5, 2018 a Major Project Permit Modification (PL18-0201) was approved to allow the building formerly occupied by Sears to be renovated to include an indoor entertainment facility (Round 1) on the ground floor and a movie theater (Cinemark) on the second floor. To accommodate the movie theater use, the roof of the building was raised approximately 35 feet.

Entitlement History

As required by the Sign Ordinance Amendment, the RMMSP is subject to the review and approval of the Planning Commission. On September 23, 1999, the Planning Commission approved the original Regional Mall Master Sign Permit, which established the criteria for all wall-mounted and freestanding signs throughout the mall complex. Construction was completed and the mall opened for business in August of 2000.

The RMMSP has been amended four times since the original approval as follows:

- On April 22, 2004 the Planning Commission approved a modification to the RMMSP (File # RMMSP 04-05) to allow changes to the sign criteria that allowed the new owners of the Mall, Westfield LLC, to incorporate the Westfield corporate identity into the Mall's signage.
- On April 12, 2007 the Planning Commission approved a modification to the RMMSP (File # 2007PL-0183) to provide criteria for temporary construction signage as well as criteria for temporary signage for the annual Sacramento Capitals World Tennis event.
- On January 10, 2008, the Planning Commission approved a modification to the RMMSP (File # 2008PL-161) to add signage for the Promenade, including The Cheesecake Factory, as well as directional, parking garage, and plateau deck signage as part of the Mall's expansion.
- On October 8, 2020, the Planning Commission approved a modification to the RMMSP (File # PL20-0100) to add signage for the Cinemark movie theatre, totaling approximately 802 square feet.

Figure 1: Project Location

The current request is to modify the RMMSP to allow various changes to the sign criteria to address signage needs for the new Round 1 entertainment venue. Round 1 will occupy a portion of the former Sears building on the north side of the Mall. These changes include two (2) new exterior wall signs for Round 1, as well as vinyl lettering for a bowling pin sculpture. Table 1 provides a summary of the area of each of the proposed signs. Further details of the proposed modifications are described in the Evaluation section below.

Table 1 – Proposed Round 1 Signs

Sign Name	Location	Area (square feet)
A – Wall Sign	West Elevation	144.83 square feet
B – Wall Sign	North Elevation	144.83 square feet
C – Bowling Pin Sign	West Elevation	13.44 square feet
Total		303.1 square feet

EVALUATION

Section 17.06.540 of the Sign Ordinance establishes the Regional Mall Master Sign Permit program for the City’s Regional Mall. Location, height, area, design, and overall number of signs are considered as part of the evaluation. Discussion is provided below to evaluate the proposed changes.

The proposed project includes wall signs for the new Round 1 entertainment venue. There are two (2) wall signs proposed, totaling 289.66 square feet of wall sign area. The two signs are face-lit, acrylic channel letter signs depicting the Round 1 logo, and are 6’7” tall and 22” wide. The signs are of equal size and proposed on the north and west elevations of the building. As previously mentioned, a special section of the Sign Ordinance was approved by the City Council acknowledging that due to the size and scale of the Mall, the RMMSP will include signs that exceed the height, area, and quantity requirements prescribed by the Sign Ordinance.

To evaluate the requested signs, staff compared the proposed sign package for Round 1 to previously permitted signs for the Mall. For example, Macy’s has approximately 665 square feet of signage (excluding the parking garage), JC Penney has approximately 673 square feet, and Cinemark has approximately 709 square feet (excluding the parking garage sign). The overall signage for Round 1 is proposed at approximately 303 square feet. As this use is smaller than Cinemark, Macy’s, and JC Penney, staff finds that the Round 1 signs are proportional to the building and consistent with previous sign approvals for other tenants in the Mall.

The project also proposes vinyl lettering with the Round 1 logo on an 18-foot tall bowling pin sculpture. The area of the lettering totals 13.44 square feet. No lighting is proposed. The bowling pin sculpture, which was approved with Building Permit # BD20-0360, will be located on the western elevation of the site. The western elevation of the building is largely blocked by an existing parking garage, and has limited visibility to the loop road around the Galleria Mall. Figures 2 and 3 below provide elevations for the north and west sides of the building.

Figure 3: North Elevation

PUBLIC OUTREACH

The proposed project was distributed to the various agencies and departments which have requested notice of City applications, and all comments were considered and incorporated into the Conditions of Approval, as appropriate. Notice of the application was also distributed to the Roseville Coalition of Neighborhood Associations. No comments were received. A public notice of the Planning Commission hearing was published on August 27, 2022, and was distributed to all property owners within 300 feet of the project site. To date, no comments have been received.

CONCLUSION

The Planning Division has reviewed the proposed changes to the Regional Mall Master Sign Permit and has found them to be consistent with past RMMSP approvals and past Planning Commission approvals. While the majority of the Mall's signs will not be affected by the proposed changes, staff feels that the revisions and additional signage are tasteful, well-coordinated, and will be complementary to the design and appearance of the Mall. Therefore, staff recommends that the Planning Commission approve the request as proposed and conditioned.

ENVIRONMENTAL DETERMINATION

The project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15311(a), which exempts the construction of on-premises signs, and pursuant to Section 205 of the City of Roseville CEQA Implementing Procedures.

RECOMMENDATION

The Planning Division recommends the Planning Commission take the following actions:

- A. Approve the **REGIONAL MALL MASTER SIGN PERMIT MODIFICATION – 1151 GALLERIA BL. STE. 150 –NCRSP PARCEL 35 – ROUND 1 SIGNAGE – PL22-0179** subject to 2 (two) conditions of approval.

CONDITIONS OF APPROVAL FOR REGIONAL MALL MASTER SIGN PERMIT MODIFICATION

PL22-0179

1. The RMMSP is approved as shown in Exhibit A and as conditioned or modified below. (Planning)
2. A Sign Permit and Building Permit are required prior to installation of any signage. (Planning, Building)
