6.3. SVSP JMC Tentative Map #4, 3801 Santucci Bl, File # PL21-0223

REQUEST

The proposed project will create 516 single-family residential lots within the Sierra Vista Specific Plan (SVSP) for a subdivision known as JMC Tentative Map #4, as well as

reconfigure land use and zoning designations throughout the SVSP. The project includes a General Plan Amendment to: move Parcel CO-21, which has the effect of changing 7.8 acres of Medium Density Residential (MDR) to Low Density Residential (LDR); change Parcel CO-22 from 4.8 acres of MDR to 4.81 acres of LDR; change Parcel FD-7 from 8.97 acres of LDR to 8.34 acres of MDR; separate High Density Residential (HDR) Parcel FD-32 (8.9 acres) into HDR Parcels FD-32A (3.81 acres) and FD-32B (4.23 acres) and reduce the HDR acreage by 0.86 acres; and increase Community Commercial (CC) Parcel FD-41 from 5.71 acres to 6.24 acres. This will result in a net decrease of 27.3 acres of LDR land use and a net increase of 27.3 acres of MDR land use, a net decrease of 0.86 acres of HDR, and a net increase of 0.53 acres of CC within the SVSP. The project also includes a Specific Plan Amendment to reflect the General Plan land use changes, remove the Mixed-Use overlay from Parcel FD-41, reallocate the affordable unit allocation of 34 middle-income purchase units from CO-20 and four (4) middle-income purchase units on DF-20 to new Parcel FD-32B, and to transfer units among several large lot parcels within the SVSP. A Rezone is requested to align zoning designations with the revised parcels and land use designations. The project also includes Amendments to three (3) Development Agreements, including the Fifth Amendment to the Federico Development Agreement, Second Amendment to the Mourier Investments LLC Development Agreement, and the Second Amendment of the DF Properties Development Agreement to reflect the project changes and reallocation of affordable units. Several additional entitlements are requested to support the development of JMC Tentative Map #4, including a Large Lot Tentative Subdivision Map, Small Lot Tentative Subdivision Map for 516 single-family residential parcels, and a Design Review for Residential Subdivisions to evaluate architecture and modified development standards for Parcels CO-20, CO-21, and CO-22. The overall unit count within the SVSP will remain the same.

Associate Planner, Shelby Maples, presented the staff report.

Discussion with staff:

- Staff presented the Commission with a memorandum that included clean-up items, revised Exhibits B and G, and new language for the Conley Development Agreement.
- A Commissioner expressed his appreciation to staff for their work on the supplemental fee language and negotiating that with the applicant and to the applicant for their contribution.
- A Commissioner asked for clarification on the fee. Staff responded that the “catch-up” fee is not just for this project but for all the land use changes made by JMC in the Sierra Vista Specific Plan and that the fee becomes effective once the ordinance is effective. The fee would be subject to annual construction cost index increases every July 1, after the ordinance becomes effective. A Commissioner extended his appreciation for the attention paid to the affordable housing issues.
- A Commissioner asked for clarification on the ½-acre increase in commercial land use for this project Staff responded that there were two (2) commercial mixed use parcels at this intersection but that one of the 5-acre properties was changed from a

commercial mixed-use to a residential land use, allowing for the applicant to work on a variety of plans for the high density and commercial sites. The current proposal makes the site more viable for future commercial uses.

Chair Jensen opened the Public Hearing and invited comments from the applicant and/or audience.

Applicant representative, Ryan Biziewski, stated he had received a copy of the staff report and was in agreement with staff's recommendation

Hearing none, Chair Jensen closed the public comment period and Public Hearing.
