**Full Cost Deposits and Deposit Replenishment**

Applicants for Full Cost Entitlement Applications shall pay for all City staff time required to process the application. A full cost reimbursement agreement shall be included with the project application submittal package. Projects outside the scope of this fee schedule (as determined by the Development Services Director) will be subject to a full cost reimbursement agreement to be approved by the City Council. This reimbursement agreement will include the identification of a work program and will include cost estimates for both City staff time and consultant services based on a defined scope of work.

Initial deposits as shown on the fee schedule will be collected and held by the City in a deposit account at the time the application is submitted. The cost of staff time will be drawn from the deposit account. A positive account balance shall be maintained at all times during the review process. No work will be performed on a project with a negative fund balance. If the deposit is reduced to below 20% of the initial deposit amount, the applicant will be notified and required to supplement the deposit account with an additional amount no less than 50% of the original deposit.

When more than one Full Cost application is submitted, the sum total of the initial full cost deposit amount can be reduced by 20%.

Funds expended for staff time shall not be dependent upon the City's approval or disapproval of the application request. The deposit account will be held open for 90 days after project approval for City to complete any miscellaneous clean up items and to account for all project related costs. Any deposit amounts remaining after final project close out will be returned to applicant. In the event that the deposit account is exhausted prior to final close out, the balance owed to the City will be credited against the plan check and inspection fee deposit at time of improvement plan review.

As may be required by the Development Services Department for project evaluation or environmental review, all payment for consultant work shall be the responsibility of the applicant.

**Planning (Entitlement) Fees**

Refund Policy

Application fees are not refundable except as follows:

- A. Refund of 100% shall be made if a determination is made by the Development Services Director that the permit and associated fee are not required by the City of Roseville Municipal Code or adopted City Resolution.
- B. If an applicant requests to withdraw a fixed fee application prior to the PEM, refund of 50% of the applicable fee shall be refunded.
- C. No refund of application fees shall be made after a Project Evaluation Meeting has been held, unless a fee waiver is approved by the Roseville City Council.

**[a] Appeals** - This fee reimburses the administrative costs associated with an appeal. Applicants for Citywide Full Cost Entitlements shall continue to pay for all City staff time and materials, consistent with the full cost reimbursement agreement, required to complete the processing of an application in the event of an appeal.

**[b] Development Agreement Review/Compliance Fee** pertains to individual development agreements. Fee will be distributed to landowners on a pro-rata basis.

**[c] Pre Application Meetings** – The City will provide up to 2 meetings with staff to discuss the initial project review and City policies relative to the proposed project. Additional meetings and staff review prior to a formal application shall be billed on a time and material basis. The project proponent will be asked to submit the pre application deposit and a full cost reimbursement agreement. Staff will record all time against the deposit account. Balances remaining in the deposit account will be applied to the application deposit account or refunded within 60 days. Negative balances will be due in full along with the application deposit or fee at time of Entitlement Application submittal.

**[d] Non-Residential** - Per Building Code, this includes Commercial and Multi-family developments. Plan Check Fees to be assessed as part of Building Department Plan Check Fee. This fee shall be 15% of the building Plan Check Fee for New Non-Residential construction (Commercial and Multi-family). Fee to be collected with Building's Plan Check Fee.

**[e] Parking In-Lieu Fee** is an optional fee that non-residential uses in the Downtown Specific Plan Area can utilize instead of providing required parking on-site. Fees for the 1st stall will be 10% of the parking in-lieu fee, 2nd stall 25%, 3rd Stall 50%, 4th stall 75% and 5 or more stalls 100% of the in-lieu fee.

**[f] In-Lieu Tree Mitigation Fee** for the removal of protected trees is calculated per inch of the diameter at breast height of the tree.

**[g] MPP Modification:** The deposit for an MPP Modification may be reduced depending on the type of modification and at the Planning Manager's discretion. All MPP Modifications shall be subject to the Full Cost Entitlement process.

\* Note regarding annual inflationary adjustment: The Initial deposit amounts will not be inflated annually, but the underlying hourly billing rates should inflate annually by the change in hourly labor rates and/or indirect cost rate multipliers.

**Building Fees**

**Building Valuation Data Table for Project Valuation Reporting Purposes** - This table serves two primary purposes:

- 1) This is the construction valuation table adopted for the purpose of assigning new construction valuation for reporting purposes.
- 2) The values in this table are also used to inform construction valuation for establishing permit fees. Amounts identified in the Building Valuation Data Table for Project Valuation Reporting Purposes are multiplied by various factors for the purpose of establishing construction valuations used to calculate permit fees. These valuations correlate to the square footage costs of permitting, plan review, and inspection services based upon the hourly rate for building services identified in this fee schedule. Factors used for calculation of construction valuation for fee calculation purposes vary based on occupancy type and whether the construction is for new structures or for improvements to existing structures (e.g., remodeling/tenant improvements). The table below identifies factors applied. Table A and Table B identify calculated construction valuations for establishing permit fees (i.e., Tables A and B show ICC amounts multiplied by factors). Final building permit valuation shall be set by the Building Official. The final building permit valuation shall be set at an amount that allows the City to recover its costs of applicant plan check, permit and inspection activities.

**Determination of Tenant Improvement (TI) Environmental Utilities Review Fee:**

<sup>1</sup>“Same Use” fee applies to any tenant improvement that requires review (by applicable statute) by the Placer County Department of Environmental Health (typical uses include restaurants, hair salons, and medical/dental offices), or tenant improvements that result in changes to equipment such as (but not limited to) triple compartment sinks, sewer lines within kitchen and maintenance areas, grease waste capturing equipment and tanks, water services including fire, domestic and irrigation, and exterior trash enclosures, etc. The fee does not apply to tenant improvements that do not involve new or modifications to existing plumbing. Examples of tenant improvements where the same use fee would not apply include: addition of new fixtures (sinks, toilets, etc) where no modification to plumbing is proposed, and addition or relocation of interior walls where no new or modification to existing plumbing is proposed. The fee shall also not apply to minor tenant improvements charged the minimum building permit fee based on project valuation.

<sup>2</sup> “Change of Use” fee applies to tenant improvements that result in a change from one use to another, such as (but not limited to) office/retail to restaurant, or office/retail to dental/medical office. The change in use fee also applies to plan review of modifications to commercial landscaping for compliance with water efficient landscape requirements.

**[g]** Third party plan review, when available, shall be assessed and paid at time of permit application. In no case shall the refund exceed the cost of services provided to date of cancellation of permit issuance.

**[k]** Permit applications and building permits that have expired as defined in the California Building Code shall not be subject to any refund.

**[l]** A building permit applicant may, upon payment of the requested permit fees to city and otherwise complying with California Government Code Section 66022, protest the requested amount to the city council by lodging an appeal with the building official. **I. Findings Regarding Permit Fees for Residential Rooftop Solar Energy Systems** - Pursuant to Section 66015 of the California Government Code (Fees for Rooftop Solar Energy Systems), the city council finds that the reasonable cost to issue a permit for a residential rooftop solar energy system exceeds \$450 plus \$15 per kilowatt (kW) for each kW above 15 because issuance of the permit requires all of the following:

- 1 One-half (1/2) hour administration time for application and data input
- 2 1/2 hour administration time for permit issuance and one hour plan review time including up to two (2) submittals
- 3 Typically 2 inspections at a minimum of 1/2 hour of staff time
- 4 Other applicable fees assessed by the State of California and by the Roseville Electric Department pursuant to the Roseville Electric Solar Energy Program Meter Upgrade Charges, as amended from time to time

This higher fee results in a quick and streamlined approval process.
